Whether founding a new school or taking on a new leadership role in an established school, this course will provide the core knowledge and introduce the skills required to successfully operate an independent school in Ontario. Critical concepts and key resources for independent school leaders will be explored in depth, including the Private Schools Policies and Procedure Manual, responsibilities of the independent school principal, understanding the validation process and preparing for the secondary school inspection. Additional topics include Human Resource considerations, marketing and recruiting students, and policy development.

The course is relevant to all school levels, both 'in-person' and 'online' school models. This course is a prerequisite for the OFIS Independent School Principals course. There are no prerequisites for this course.

Registration is limited and closes Monday, July 4th, 2022. Fees include all course materials and light meals (breakfast, lunch and refreshments).
